Solar overlord

Warrior priest of the sun

Pillar of the ancient order

God and beast as one

Solar overlord

Spawn of the invincible sun

Spartan discipline

Imposed on the militant monks

Solar overlord

Warrior priest of the sun

We are the sons of death

Calm in the storm

Solar overlord

Spawn of the invincible sun

Kali yuga reigns

This cycle of regression

Overman, titan height

Promethean thrust

Radiant anger, bursting hatred

Burning lust

Overlord, shade of Hades

Bringer of death

Bow down for the solar overlord

Kneel down for the solar overlord

A million sun storms in my mind

Transcending mundane madness

Ascending to heights unknown

I will unleash the thunderbolts

We are the thrusting horns

The order of the bull

The blood will be spilled

To celebrate the black sun

Raven of dispersion

Brought to the streets

Explosive charges and debris
Chaos to be unleashed

Overman, titan height
Promethean thrust
Radiant anger, bursting hatred
Burning lust

Solar overlord
Warrior priest of the sun
Pillar of the ancient order
God and beast as one
Raven of dispersion
Brought to the streets
Explosive charges and debris
Chaos to be unleashed
