When I close my eyes I can see your face and
the sun shining true on that special place and you,
you will always gonna be my king

I will always gonna be your king

I will always gonna be your queen

You know we can be always anything

Remember now

Chorus:

What ever may come, were ever
you're lost remember there always be a place for us
castles we build crumbles who dust don't worry there
always be a place for us.(A place for us)

When I close my eyes I can hear you laughing but
night it will fall and the day will pass, but you, you will
never really know what you find

You never really know what you find

All you gotta do its open you're mind

Just gotta left the real world behind

Remember now

Chorus:

What ever may come, were ever you're lost
remember there always be a place for us castles
we build crumbles who dust don't worry there always
be a place for us.

ooooooooaaaaaa

uuuooooooooaaaaaa

You you always gonna be my king

I was always gonna be you're king

I was always gonna be you're queen

You Know we can be always anything

Remember Now

Chorus(2)

What ever may come, were ever you're lost remember
there always be a place for us castles we build
crumbles who dust don't worry there always be
a place for us.
