Me rock, me rock, going bright
Take me safely through the night

Came my curly games unpacked
Trap attention, go and sweat
Chrushing on that made me say
Let the way through burn in flame

Crazy ways are catching up
Lying's so fine, there's not enough
Choose too rude, but not for you
Search my soul, here's my tune

It's to die for
Not to cry for
Pick up your love for
Call it hardcore

It's to die for
Not to cry for
You'd rock a lot more
Call it hardcore
It's to die for
Not to cry for
You'd rock a lot more
Call it hardcore

You know the deal about the field
It get so damn hot that it can't be for real
Check the mainframe just to make sure
Grab your stack, cause it's so pure
Training all your energy, they won't get fusing
You couldn't say no, just refuse it
The life, you get it, the better the worse
Man, you're real mean depressive and stand up across

Me rock, me rock going bright
Take me safely through the night
Break on through because you know
Party as go is good to go
Don't just shovel all the dirt
Stupid people check it out

Steal the reel and pass the pain
Coming down like acid rain

It's to die for
Not to cry for
Pick up your love for
Call it hardcore

It's to die for
Not to cry for
You'd rock a lot more
Call it hardcore
It's to die for
Not to cry for
You'd rock a lot more
Call it hardcore

Now we get the piece of corn flakes on rye
Make the west a peace no priest will watch for-ah
Listen and learn you burn, you can test
Bigger the better, the better, bigger the bigger, best

You try it, you try it
You buy it, you dye it
You buy it, you try it
You buy it, you dye it

Leila's got a wennish school shaft
For the kids we get a work
And there's a kick in the plant-life
The trick is to steal, and swear the figure they can't
arrest
Bigger the better, the better, bigger the bigger, best

It's to die for
Not to cry for
Pick up your love for
Call it hardcore

It's to die for
Not to cry for
You'd rock a lot more
Call it hardcore
It's to die for
Not to cry for
You'd rock a lot more
Call it hardcore
