Move - C'mon

Move - C'mon

Just tell me, what did I know
Time passes by, and I love you so
You took my heart, torn me apart
Now you've got me left with a broken heart

You see live so high, and it got so high
Go on and go on, until you go apart
You've got it wrong all the way, as I always say
Move one another, cause that is big

I know I've got the things you adore
And more, the feeling I have is you
I need a man, a truger (?), isn't a luger (?)
Telling my way, where easy's gonna show

Of course I've met some
Stupid and dumb
Nothing in my heart
Cause I didn't have one
So I kick them away
And whatever they say
I'm the K. I'm not an easy lady

You told me
You love him so
But babe, how should I know
Just tell me, what is love for
Time passes by when I love you so
You told me
You love him so
But babe, how did I know
Just tell me, I don't know where to go
You took my heart and you torn me apart

At this point, some things are clear
I am what I am, no matter what I want
Or how I look I'm just the same
To the cover someday, and you can read it anywhere

Saturday night in the middle of nowhere
Lots of people but I saw him there in the park
Like I'm running away
My heart's beats faster here

Cause one thing is clear
When I got over there
Someway, somehow I've got to get him now
My soul explode and I went WOW
I say hey sir, this I can't measure

What I got for him, was a first class cruise
Gave him a rolex, driving a Porche
Cause the way he look it's typical to qualify
To go on thinking: try to relax a while

You told me
You love him so
But babe, how should I know
Just tell me, what is love for
Time passes by when I love you so
You told me
You love him so
But babe, how did I know
Just tell me, I don't know where to go
You took my heart and you torn me apart

To be or not to be, that's the question
Before I didn't know about the love injection
What I say, is what I mean
Everybody's talking about the love machine

Yesterday I was driving with a girl
Now I do not, to face the world
This effect the love has on me
Is driving me crazy, definitely

I give you what you've got
And I'm telling you no lies
I'm in a concept of love
And I want you for me
Someone to please, hold me and tease me
You're the one to take care of me
You've got the class, and that's cool for five
This time you've got, make me feel so fine
Cause what you did, is OK to love by (?)

You told me
You love him so
But babe, how should I know
Just tell me, what is love for

Time passes by when I love you so
You told me
You love him so
But babe, how did I know
Just tell me, I don't know where to go
You took my heart and you torn me apart

You told me
You love him so
But babe, how should I know
Just tell me, what is love for
Time passes by when I love you so
You told me
You love him so
But babe, how did I know
Just tell me, I don't know where to go
You took my heart and you torn me apart
