Making it bash into yo head
Now come on
Shakin that ass, tap that ass
Now come on

Hey my name is Leki
In Lingala that's baby
If you wanna party with me
Don't be stiff and move yo body

I'm a bring it on
Likin da flava I'm singin on
Keep it on
It moves me right
Feelin it out cause the mood is right
OH!
I'm wandering, on my way pondering
But I like it yo
The beat in my ear 'n I need a flow
Find the right thing to make it go .. Hold!
Go crazy make it blow!

Makin my people jump up
Makin those speakers bum up
Like my sister .. pump it up
Just signed my deal I'm coming up

Hey my name is Leki
In Lingala that's baby
If you wanna party with me
Don't be stiff and move yo body

Hola, Hola, Hola
Tap don't be chilly
It's for my urban folk 'n even for the Hillybilly
Feel it, Feel it, Feel it,
It's the floor filler
Gotta make you shake all night
'n be the feet killer
Bringing the swing in
What you lack I'm a fill in

Do you dig that?
So can we get it on
Ay-attack it 'n come along come along
Hungry you on my menu
I'm a try to be at every venue
Ready to make an outin
I'm done with all the hiding

Makin my people jump up
Makin those speakers bum up
Like my sister .. pump it up
Just signed my deal I'm coming up

Hey my name is Leki
In Lingala that's baby
If you wanna party with me
Don't be stiff and move yo body

Feelin like a case outa the X-Files
All my life, damn, thinkin I'm an alien
Stuck here in oblivion
Waiting for a million years to pass
For the coming I'm a dash
Straight into the mothership 'n fly me home
Cuz on the blue planet I'm feelin all alone
Pickin up the phone no ringtone, noooo
Still here, guess I'm a never go
If I stay then why not make it play
In every single way
Every night and every day hey?!
If I stay then why not make it play
In every single way
Every night and every day hey?!

Hey my name is Leki
In Lingala that's baby
If you wanna party with me
Don't be stiff and move yo body
