Chorus:

Now I am alone with you
this is what i want to do my boo
I wanna just give it to you slowly
Work til the early mornin
As you call my name

Verse:

After work Im so glad that you called me
And we spoke through the night until dawn
As we spoke had to tell you my feelings
And you said that you felt the same

Think its time to get serious- only us
You've told me what was on your mind
But something else is playing on mine
Can i tell you?

Chorus

Lets embrace
Lets not waste precious moments
Tender kiss- softly touch on every curve
Dim the lights- not too dark
I wanna see you
Lay you downand let the night begin

Think its time to get serious- only us
You've told me what was on your mind
But something else is playing on mine

Can i tell you?

Chorus x2

Girl your every wish and your every prayer
Your every dream- i wanna make it all come true
Can i make it all come true? i love you

chorus

My every wish is to lay with you

My every prayer is to lay with you
My every dream is to lay with you
My every wish has now come true

Chorus

My every wish is to lay with you
My every prayer is to lay with you
My every dream is to lay with you
My every wish has now come true (x2)
