"Invincible"

Visit "[Invincible](#)" on MotoLyrics.com

I had a dream, it was golden
We were children, playing heart to heart
There was a king, he sent the soldiers
They had orders to tear us apart, oh no
So we ran and we ran and they
chased and they chased
But the love that we had took us up,
flew away

A better way
We were huge, we were tall,
They were weak, they were small
And at last we were free,
we could save... whoa
It was amazing
We were invincible
Together we're invincible
They can't take you away from me

Sound the horn call the cavalry
We were invincible
Together we're invincible
They can't take you away from me, no whoa
Invincible, invincible, whoa
I still hear your voice
inside my head, in my head
Invincible, together we're invincible

They can't take you away from me
Sound the horn call the cavalry
We were invincible
Together we're invincible
They can't take you away from me, no whoa
You have chosen me instead, instead
