hey if someone had something to say what do you
act gay. lame, do you skip in shame
people must ask can you chew while you walk
can you fall and talk
if you had nothing to do you can lay
under your bed and count to 5 or 80
or you can hang out in the club with slim shady

hey you make beaf stew for you and the crew
and your in the desert digin for your shoe
then you are tryin to sleep its hard not to make a
peep and your brother is snorin like a sheep
hey what are doin when you find someone
do you act like you are the chosenone
do you want to have fun
