Na na na na na na, na na

Take a look around
Who would have thought we'd all be here?
So let's mess around
Cuz the future is unclear

We've got nothin' better to do,
We're just tryin' to get through.
Can you hear me?
Can you hear me?

Let the music groove you
Let the melody move you
Feel the beat and just let go
Get the rhythm into your soul

Let the music take you
Anywhere it wants to
When we're stuck and can't get free
No matter what we'll still be singing

Come on, come on, turn up the music
It's all, we got, we're gonna use it
Come on, come on, turn up the music

All we have is now,
Let's make the most of it
Come on break it out,
So everyone can hear it!

They don't have to understand
But we'll make'em if we can
Do you hear me?
Are you with me?
E-yeah

Let the music groove you
Let the melody move you
Feel the beat and just let go
Get the rhythm into your soul

Let the music take you
Anywhere it wants to
When we're stuck and can't get free
No matter what we'll still be singing

Come on, come on, turn up the music
It's all, we got, we're gonna use it
Come on, come on, turn up the music

Come on, come on, turn up the music
It's all, we got, we're gonna use it
Come on, come on, turn up the music

Let the music groove you
Let the melody move you
Feel the beat and just let go
Get the rhythm into your soul

Let the music take you
Anywhere it wants to
When we're stuck and can't get free
No matter what we'll still be singing

Come on, come on, turn up the music
It's all, we got, we're gonna use it
Feel the beat and just let go
Get the rhythm into your soul
Let the music take you
Anywhere it wants to
