Everywhere I go
It's rainin' now
I close my eyes
And I can feel it fallin' down
And now I'm faced with the reality
There's no escaping from the pain of you and me

Baby, let it go,
Take it slow
Ohwoah
Let it go,
Take it slow,
Let it flow, let it flow

Give your soul
I gave it all
And I meant every word I said
I thought we could fly
Said we would try
I said I'd be with you for life
And I promised I'd never make you cry,
Didn't I?

Don't make me justify your every move
Don't want to have to question everything you do
Don't play the victim cause the blames on you
I just need time to deal with what you put me through
Ooh

Let it go
Take it slow
Ohwoahh
Let it go
Take it slow
Let it flow, let it flow

Give your soul
I gave it all
And I meant every word I said
I thought we could fly
Said we would try

I said I'd be with you for life
And I promised I'd never make you cry,
Didn't I?

Couldn't breathe,
Couldn't eat
Do you know I cried myself to sleep
Looked to the sky
Didn't know why
Cause all I gave you was all of my love
Boy Didn't I...

Give your soul
I gave it all
And I meant every word I said
I thought we could fly (thought we could fly)
Said we would try (said we'd try)
I said I'd be with you for life
And I promised I'd never make you cry,
Give your soul
I give it all
And I meant every word I said (every word I said)
Thought we could fly
Said we would try (I said we'd try)
I said I'd be with you for life
And I promised I'd never make you cry,
Didn't I?
