I've got a heart that's broken in two
And it's all because I gave it to you
Oh, I should've known what they said was true
Said you love and you leave her you're a first class
deceiver and I fell for you

You run around and you play with love
And I found out forever ain't what you're thinkin' of
You've had your fun and I've had enough
I guess better luck next time or don't fall in love

Forgive and forget is such a smooth line
But it's one that you gave one too many times
And I don't want to hear what you have to say
So don't sing me no sad song 'cause I know it
won't be long
You'll find a new place to play

You've had your fun, and I've had enough
I guess better luck next time or don't fall in love
