"Live It"

Visit "[Live It](#)" on MotoLyrics.com

I don't see where we are
And I don't see how we fit
We are just common threads
Trying to be a stitch

Weaved in the pattern of
This life we're trying to live
We're holding what we have together
To give what we can give

(Chorus)

There ain't nothing at all in life that's ever gonna be
just what we want
So don't expect it to be more than that
It's just all a competition in the end
So accept the fact, go grab your life and live it

The knots that tie us down
Are tangled by ourselves
Disrupting all the work
Put in by how we felt

So we can move along
And keep the damage sewn
Or we can cut the line
Redo where things went wrong

(Chorus tag)

I don't see where we are, yeah
And I don't see how we fit

(Chorus)
