[Verse 1:]

You had to win this this, transformation
See too fly, minute to hour, and my revelation
Oh, you keep yourself so far
I can't explain my part.
We fell together and now I don't feel we are

[Chorus:]

You don't even notice like a puzzle we are broken
Lying in pieces on the floor
What are you waiting for?
All the cracks are showing, like a puzzle we are broken
Lying in pieces on the floor
I can't touch you anymore
You don't even notice like a puzzle we are broken

[Verse 2:]

It's hard to hear this, now, of complication
Word for word, we knew they'd heard, this is the
convocation
Time has worn down this shack
How could you be so blind
We fit together but now I don't think are

[Chorus:]

You don't even notice like a puzzle we are broken
Lying in pieces on the floor
What are you waiting for?
All the cracks are a showing like a puzzle we are broken
Lying in pieces of the floor
I can't touch you anymore

[Verse 3:]

They won't stop now, it goes all around
I can still hear you
Almost broke the cold
We came to close
I can not feel you
They won't stop now
It goes all around
I can still hear you

Almost broke the cold
We came so close
I can not feel you

[Chorus:]

Like a puzzle are broken lying in pieces on the floor
What are you waiting for?
All the cracks are showing like a puzzle we are broken,
lying in pieces on the floor
I can't touch you anymore

You don't even notice, like a puzzle we are broken
You don't even notice, like a puzzle we are broken
