Beein livin' with your shit too long  
You know it gotta end  
Yell to me sing your song

You know it's gotta end  
You just been around too long to still be my friend  
Try and talk it out with you  
Lets not pretend  
Now's the time  
Today's the day to show you what I fail to say  
I gotta stick

I got some friends  
This is where your story end  
Right now we're gonna belt  
Right now you don't look so well  
That right you can't walk so well  
Go on, give it a chance  
May I ask for this dance  
You're fucked up
