Visit "Hospital" on MotoLyrics.com

There's a disease going 'round the hospital
Green, green leaves falling from the trees
There's a disease going 'round the hospital
Green, green leaves falling from the trees

You gotta run away
You gotta spin a web
You gotta stay up late
You gotta stay in bed

There's a disease going 'round the hospital
Green, green leaves falling from the trees
There's a disease going 'round the hospital
Green, green leaves falling from the trees

You gotta run away
You gotta spin a web
You gotta stay up late
You gotta stay in bed
