Misdirected girls in town
Just a-layin' down by a pool
Check the scene check all 'round
Be sure an' act a fool

You don't even know your name
You should bow your head in shame
But you say that it's all right
You go out night after night

You're sad girl
Ain't it a shame?
You're sad girl
Aren't you a pain?

Been around for quite some time
There's other's been around longer still
Dye your hair get, fucked up, pass out
You got no reason to be on the pill

Sad girl, sad girl
Sad girl, sad girl
