So I fucked up
I'm only human
So I fucked up
I did the best I could do

And then I fucked up
What do you want
I said I was sorry
Would it help if I said it again?

So I fucked up
I'm only human
So I fucked up
I did the best I could do

And then I fucked up
What do you want
I said I was sorry
Would it help if I said it again?

Fucked up
Oh shit
I'm real sorry

So I fucked up
I'm only human
So I fucked up
I did the best I could do

And then I fucked up
What do you want
I said I was sorry
Would it help if I said it again
And again, and again, and again?
