"Another Life"

Visit "[Another Life](#)" on MotoLyrics.com

Haven't you heard it could be coming tonight
Just leave all your things and come and celebrate life
This time is for love, not for heartache and strife
There's no time for games and there's no time to fight
Just feel all the love that is in the air,
The feeling so good and it's everywhere,
So come on along if you heart's feeling right,
Just open your wings it's a natural flight
You can do what you want, you can say I'm a fool,
And I'll see you in another life
See you in another life

He walked on this earth so we can party tonight,
He taught us of faith 'cause it's not about sight
He taught us of peace and unconditional love
He led us from wrong and forave us there of
He did all the things 'cause he wanted you
He died on that cross so you wouldn't have to,
And now all the worlds such a beautiful light,
Just open your eyes it's a beautiful sight
You can do what you want, you can say I'm a fool,
And I'll see you in another life
Another life, come on !

You can do what you want, you can say I'm a fool,
And I'll see you in another life
See you in another life, oh yeah
Another life
See you in another life, another life
See you in another life, oh yeah,
Another life, see you in another life
Take me higher higher, Oh yeah yeah
Higher higher, higher yeah yeah yeah yeah !
Higher higher, Come on -(living? you sinners?) yeah
Higher higher, higher yeah yeah yeah yeah
