It could be said
You've got a fat head
You're way too mean
A little fucked up it seems

It's been so crazy
Too bad and a shame
So sickening and lame
A shitty, motherfuckin' pain

It could be bled
Your brains melted dead
A face with no cred
For you and all that is said

It could be done
You haven't won
And even my cat hates you
And thinks you are dumb

It could be said
You've got a fat head
You're way too mean
A little fucked up it seems

It's been so crazy
Too bad and a shame
So sickening and lame
A shitty, motherfuckin' pain
