i've been knocked in the ring
not waiting for long
and to tell you the truth
i don't even wanna sing the song

the sun is up
that's what my crew is all about (yeah)
the real fun(the sun is up that's what my crew is all
about)
it's time to roll
let's see what's left to be had

and you know the more you see
the more you know you seem to need it so bad
i'm gettin' months let's have a good time
and lets go (i'm gettin' months let's have)

i know we have
we've only got one move
you see, the sun is up
you gotta just do watcha wanna do
(do whatcha wanna do)

and you can't
i've come to far to lose
put a smile on your face
and make it happy in this place
because we're gonna have everything we want
in our own way

[x2]
yeah!
the sun shines where my bobby walks
the birds sing when my bobby talks
the sun shines where my bobby walks
the birds sing when my bobby talks

its just big enough for good places to go
theres like a million things to do
and i'll be stupid to let them go
i'll grab a hand and make a bed where i land
and just flow (i'll grab a hand and make a bed

where I land)

and i'll sit and make believe my brain gets me stoned
and all the seeds are full of bees
and all the trees through the sunshine grow
I feel glad that my crew has let me know
(I feel glad that my crew has let me know)

i know we have
we've only got one move
you see, the sun is up
you gotta just do watcha wanna do
(do whatcha wanna do)

and you can't
i've come to far to lose
put a smile on your face
and make it happy in this place
because we're gonna have everything we want
in our own way

[x2]
yeah!
the sun shines where my bobby walks
the birds sing when my bobby talks
the sun shines where my bobby walks
the birds sing when my bobby talks

[sing to end]
the sun shines where my bobby walks
the birds sing when my bobby talks
the sun shines where my bobby walks
the birds sing when my bobby talks
