When I was young
I fell in love
She was a goddess
with the world inside of her mind
When she moved on
something went wrong
She took my power and the love I had inside
Now that I found you
I don't know how to

(Chorus)
If I could fall
In love again
I'd fall in love with you
If I could change
A grain of sand
Into a pearl I would

I pray in time
I'll come to find
Away to break through
And save this heart of mine
You've waited long
If you can't hold on
I wouldn't blame you
I don't think I'd be that strong
What am I to do
If I can't have you

(Repeat Chorus)

You love me so
Even though I don't know
How do you deal
With a man like me

(Repeat Chorus)

I would (x3)
