And so there comes a time,
We must both make up our minds,
Is our angel singing true,
Is it me is it you ?

I just got to know it now,
Rode somewhere, some place, somehow
Is our love as deep as blue
Is it me is it you ?
Is it me is it you ?

I'm lost in your love
Don't think I ever stopped
I got the feeling that's the reason why
And the question's loud and clear
Should we stay or should we bend
It just gets deeper in the end
I know you want to know it too
Is it me is it you ?
Is it me is it you ?
