All I have
And all I do
Cannot compare
To the love of you
You make me feel alive
You are my highest high
All I can do is smile
When I look in my little girl's eyes
When I look in my little girl's eyes X4
You're my star
And when I'm far
You're not alone
'Cause your heart's my home
You are my biggest prize
So beautiful and so wise
I can see the woman from within my child
When I look in my little girl's eyes
When I look in my little girl's eyes X4
You make me feel alive
And you are my highest high
All I want to do when I come into the room is see her
smile
When I look in my little girl's eyes
When I look in my little girl's eyes
