What's my name? Biz Markie! (x2)

Hold on, hold on, hold on right here.

Biz Markie...

It was a dream of rock and roll and we're giving gifted time,
and the funky didn't matter, all just beats and rhymes
So we made a bust on Blackie Street and parked it,
and we knew that we had to be as dope as the Ill Fresh Juice-school

There was DJ Swagg, Cut Master Cool B,
and my mind was Melly Mel and Biz Markie
We were only and just young,
so who would've thought today that we would tell you
that it happened this way

All the people in the place rockin' (coast to coast)
Put your best foot forward and (rock the house)
And if your feelin' this you better let me (hear ya shout)

What's my name? Biz Markie!

To my man Biz, it's all for you
Thanks for putting out the records guide the way that
you do
You keep going off 'cause you just try to follow so
when you broke us down, to our last hip talent
So, you gotta cheer when better chords get near,
that's what we're dream of with our samples
There's so many blacky jerkits then there're people
on their seats, and it's digitalized beats

All the people in the place rockin' (coast to coast)
Put your best foot forward and (rock the house)
And if your feelin' this you better let me (hear ya shout)

Mr. Dibbs is on the cut, cut, cut

When we were young, we started in the streets,

we never thought that there'd be a day that we would
be
So when it was time, we made a Biz to jump backs,
we laid tracks while the later hours
Now so keep on rockin' 'cause no one beats the Biz,
the rest is just the fakers that the way it is
This is going on but you think we should be there,
who is Biz (oh he's just a friend)

All the people in the place rockin' (coast to coast)
Put your best foot forward and (rock the house)
And if your feelin' this you better let me (hear ya shout)

'Cause Len'll take you out (x3)

Len'll take you out (x10)

Y'all want more?
I can't hear you, do you want some more?
Okay, let me get it.
Do y'all want some more?
Gather all over here.
Do you all want some more?

I'm gonna try some, so y'all go up.

If you all want some more,
I want this side to go hell, and I want this side to go
yeah, aight?

One, Two, Three

HELL, YEAH (x10)
