Something in my heart
Burning me so hard
Makes me feel the... has gone to say
I just wanna live
Like I always did
Don't you wanna let me go away

Something in my heart
Something in my heart...

You are so sweet when you need
Somebody to love
You always succeed
To get all you want
How could I resist
You take my soul
I just can't live like
I did it before you
I did it before you
I did it before you

You are so deep in my mind
Whatever I do
It's useless to hide
My love for you
How could I resist
You take my soul
I just can't live like
I did it before you
I did it before you
I did it before you
