**\*CHORUS\***

Forgetting the things you want  
Versus getting the things that you need  
And tell me how bad do you want it  
And tell me how much of it's greed

**\*ABSTRACT RUDE\***

You want wine  
And need water  
These rhymes we offer  
The kind of authors  
To knock ya' out of ignorance  
End of the innocence  
Begin to the finishing  
With the men significant  
Welfare recipients  
Tragic  
Addicts with a bad habit  
Somebody's baby's mamma  
At the Carter  
In the new jack city  
Oh what a pity  
This again locked up  
For soliciting  
Oldest profession  
The men buy  
So it's selling  
You want pork  
Need veggies  
For your bone support  
Be ready for armageddi  
Hold the fort down  
Go through the court trial  
Get acquitted  
Be committed  
To the sacrifice  
It's a lotta pie  
Ab get a slice

**\*CHORUS\***

And tell me how bad you want it

And tell me how much of it's greed  
Forgetting the things that you want  
Versus getting the things that you need  
And tell me how bad do you want it  
And tell me how much of it's greed  
Forgetting the things that you want  
Versus getting the things that you need

Right about now  
A nigga Drunk  
Been smoking  
Some ole janky  
Rolled stress blunts  
I want skunk  
I really want my baby momma cunt  
She kick it with punks  
When I know a family man  
What she want  
Bitch made niggas  
On the rag  
Every month  
I should just punt fools  
Like footballs  
My goals to make you look  
Yo I could call some stunts  
>From porno industries  
Or get some from  
In the streets  
Shady heat  
That's meant for me  
But what I want  
And what I need  
Should be about me  
And my seeds  
Cause sometimes  
I have flashbacks  
Of chopping crack  
And weed  
Moving X and LSD  
Having sex  
With more than 3  
Busting checks  
For 50 gees  
Cashing checks  
And pushing keys  
Vexed and connects  
With the greed  
I process  
Take the rolex off your wrist  
Take the roladex off your desk

But in the long run  
I'm a strong son  
Those klepto days done  
My life reflects  
Universal  
Cause and effect  
In every action  
I'm sorry my karma  
Ran over your dogma  
Loved one  
Don't be upset  
We can still pop a bottle  
Then we can get lit up and wet  
The common ground  
Is the love  
We all express  
Whoever got a problem  
With that  
Deserves what they get!

\*CHORUS\*

Forgetting the things that you want  
Versus getting the things that you need  
And tell me how bad do you want it  
And tell me how much of it's greed  
Forgetting the things that you want  
Versus getting the things that you need

Man  
I want money  
I need food  
I want clothes  
I need housing  
I want cars  
I need good health  
I need knowledge of self  
I got knowledge of self  
I want peace  
But I need help  
I want to do right  
But I need the mic  
I want wings  
But they gave me a bike  
I need light  
I want the blacks to know  
They need the facts  
I want a Cadillac  
But I need tracks  
To make stacks  
I want a million in the bank

And a pound of dank  
But I need to think  
Cause I could sink  
And get caught up  
In the funk stank  
I want to pull rank  
But I need to be a saint  
And so I need a prayer  
And after that  
I need a drink  
Cause I want to be  
Wanted need  
To be needed  
But I want to stay  
blunted  
And need to be  
weeded  
For my own goodness sake  
I want to escape  
But I need to set you straight  
So tell me how bad do you want it  
Punk  
And tell me  
How much of it's greed  
Versus  
Getting the things that you want  
Pumpkin  
Or getting the things that you need  
Sucker
