****I Wish****

Tattoos of memories
Others have been removed surgically
Its funny how we bend
Just to try to make amends
Stop. Rewind. I think Ive come undone
Stop. Rewind. I wish I was forever young
I wish I wish I wish I was forever young
I wish I wish I wish I was forever young
Weve been drinking all day
Its time to take the center stage
Soak the scene with gasoline
There's a fire that's got the best of me
Stop. Rewind. I think Ive come undone
Stop. Rewind. I wish I was forever young
I wish I wish I wish I was forever young
I wish I wish I wish I was forever young
Hey can't you see
There's a cloud and it's hanging over me
Hey can't you see
There's a cloud and it's hanging over me
Its days like these
Its days like these
Its days like thesel wish I was forever young
