It's a lie no blushes for baby She told me that ain't nice
You want a flower 'cause pleasure equals power Don't
you, fraulein? I want someone to face it Don't wanna lie
and tell you To take me as i am That i am a better man
Roses, candy, engagement rings Why must we play
these games? Don't trust me baby 'cause my heart is a
stone I am powered by instinct and i won't be told Don't
cry your eyes out that lust makes me cold Don't touch
me sugar 'cause i'll take your gold Love is nothin' much
to me Don't get your dander up Midas always seductin'
angel you will fall - for me This one's rotten to the core
(now come on) Midas in reverse i want to steal it - come
on Midas in reverse i want to feel it - come on Midas
always seductin' angel My fleshhammer is comin' down
on you I'll flunk you out of obedience school Why must
we play these games? My love gun's not a gentleman
An exterminating angel my love is a bitch Trigger
finger's itch Don't get your dander up Love is nothin'
much to me This one's rotten to the core (now come on)
Midas in reverse i want to steal it - come on Midas in
reverse i want to feel it - come on Midas always
seductin' angel you will fall - for me Midas always
seductin' angel
