"My Cassette Player"

Visit "[My Cassette Player](#)" on MotoLyrics.com

I am not the kind of girl
Who takes you to a world far behind

But if you want me to replay
You need a little time to rewind

Somehow throughout the days
They took it away
It is no more the same
Without it, without it

So tell me...

Who took my cassette player
Who took my cassette player
I loved it so
I can't let go

So tell me...

Who took my cassette player
Who took it, who took it
I loved it so
Who took my cassette player
Cassette player

Like a song that's in my heart
It always played a part
In my life

Like a book that's on a shelf
With all it's memories
Hard to find

If you want me to play
I can honestly say
It is no more the same
Without it, without it

So tell me...

Who took my cassette player

Who took my cassette player
I loved it so
I can't let go

So tell me...

Who took my cassette player
Who took it, who took it
I loved it so
Who took my cassette player
Cassette player

If you want me to play
I can honestly say
It is no more the same
Without it, without it

So tell me...

Who took my cassette player
Who took my cassette player
I loved it so
I can't let go

So tell me...

Who took my cassette player
Who took it, who took it
I loved it so
Who took my cassette player
Cassette player

I want to have it... back
