Hi how are you
And how was your day
Did you think about what I had to say
Maybe I was emotional
But I had to clear the air

These are the kinda things that are sent to
Test our relationship you know
And if it don't kill us it'll make us even stronger
It's not rocket sciences is it

Actions speak louder
Much louder than words
Have you ever stopped to think how I feel
Maybe cause your a bloke for you it's just one big joke
But I seriously seriously love you

And I don't want us to part
Who needs a broken heart
I want all this to work
It's not rocket science is it

Maybe we should
Order something from the takeaway
Spend the night on the couch watching TV

Maybe we should
Not make things so complicated
Try not to get aggravated anymore

There's a million and one reasons
We shouldn't fall apart
So let's put away the arguments send them out to sea
And forget who's right or wrong
All I wanna do is love you (love you love you)

There's a million and one reasons
We shouldn't fall apart
So let's put away the arguments send them out to sea
And forget who's right or wrong
All I wanna do is love you

Maybe we should
Order something from the takeaway
Spend the night on the couch watching TV

Maybe we should
Not make things so complicated
Try not to get aggravated anymore

There's a million and one reasons
We shouldn't fall apart
So let's put away the arguments send them out to sea
And forget who's right or wrong
All I wanna do is love you (love you love you)

There's a million and one reasons
We shouldn't fall apart
So let's put away the arguments send them out to sea
And forget who's right or wrong
All I wanna do is love you
All I wanna do is love you
All I wanna do is love you
