Cheerio, cheerio, bye bye  
Cheerio, it's too late to try  
'Cause I miss you, every morning and I need you every  
night  
Cheerio, cheerio, bye bye  
Cheerio, cheerio, bye bye  
And I will never know the reason why  
For a moment we were lovers and for a moment you  
were mine  
And now it's over, Cheerio, bye bye  
You were running wild  
No miss forgotten and shine  
And I saw you on the rooftop,  
And you eyes were shining bright like a candle in the  
night  
Was it only a game, you played for fun  
Did you think you could fly  
Just the memory remains as sides go by  
Cheerio, cheerio, bye bye  
Cheerio it's too late to cry  
And there nothing, to forgive you  
What is wrong and what is right  
Cheerio, cheerio, bye bye  
Ah, Cheerio, cheerio, bye bye  
Cheerio it's too late to cry  
'Cause I couldn't live without and you couldn't take the  
fight  
Cheerio, cheerio, bye bye  
Cheerio, cheerio, bye bye  
Cheerio, it's too late to try  
I'm so lonely in the morning and I miss you every night  
every night  
Cheerio, cheerio, bye bye  
Cheerio, cheerio, good bye
