Teenage girls aren't sugar and spice
Cause boys I know don't go for nice
I spent my allowance on something you'd like
You play sick boy
I'll be your nurse tonight

You'll be surprised
My friend's mate's giving me the eye
Says he's got a fast car
And he wants to teach me how to drive

We smoke funny things
Catch a bottle of wine
Flip you off when I'm riding my bike
Skip school
Put me in a sunny mood
And I'll hop hop straight into love with you
Cause ain't that what teenage girls do
Cause that's what teenage girls do do do...
Ain't that what teenage girls do do do

Teenage girls aren't sweetness and light
The things we do will blow your mind
My friends all come over when my mum's not home
I've got pictures
On my phone

We smoke funny things
Catch a bottle of wine
Flip you off when I'm riding my bike
Skip school
Put me in a sunny mood
And I'll hop hop straight into love with you
Cause ain't that what teenage girls do
Cause that's what teenage girls do do do...

Ain't that what teenage girls do do do

Teenage girls turn out allright
Not too different from teegange guys
Chill hang sleep
We do as we like
Won't say sorry
That's how we ride

Do do do do
Ain't that what teenage girls do do do do

We smoke funny things
Catch a bottle of wine
Flip you off when I'm riding my bike
Skip school
Put me in a sunny mood
And I'll hop hop straight into love with you
Cause ain't that what teenage girls do
Cause that's what teenage girls do do do...
Ain't that what teenage girls do do do
