I just fell for your trap, no doubt about that
Yeah, I fell for your trap, you cheated me baby
Like a fly in a web I feel poisoned and dead
Like a fly in a web, you cheated me baby
Who's that man, what's his name
Spiderman, come on, come out and play
Show your face, devil or saint
Spiderman, come out and make my day

So I fell for your trap, no doubt about that
Yeah, I fell for your trap, you cheated me baby
Like a fly in a web I feel poisoned and dead
Like a fly in a web, you cheated me baby

Mmm how could I know, how could I know
He was one of them, a speedy spy
Baby, you really got me
Blind, I was blind, but now I see what you've done to me
Spider
I know, someday we'll meet eye to eye and one of us
must die

You cheated me baby - You cheated me baby
You cheated me baby - You cheated me baby

Like a fly in a web I feel poisoned and dead
Like a fly in a web, you cheated me baby
Who's that man, what's his name
Spiderman, come on, come out and play
Show your face, devil or saint
Spiderman, come out and make my day

Don't forget I'm a little girl in a men's world
You know, powerful men are so sensible
I'll work it out, I'll sort it out
I'm gonna work it out, I'll sort it out.
By the way, you've got a lipstick mark on your chin
