(VERGE 1)

Ooh don't be shy  
Feed your appetite  
You got that rocket fuel  
Ignition ready oohh...

Ooh Ooh, so fire it up  
Don't hide it, hype it up  
They're watching us so what  
Don't you know that...

(BRIDGE)

Some people are born to shut up and sit behind a desk  
Some people are born to be safe and cannot take a risk  
Handcuff up your boss yeah, be rough me might like it  
like it  
He'll get a rise, you'll get a raise  
Don't tell his wife about it

CHORUS:

Ooh, it's your duty duty  
To shake that booty booty  
Small, fat or round or juicy  
You are what they desire  
Ooh, it's your duty duty  
To shake that booty booty  
So what you waiting for  
You are what they desire  
Shake it shake it shake it shake it  
You are what they desire

Ooh, straight or gay  
Just swing it either way  
You've got to whip it up  
Into a frenzy

Ooh, it's what you feel  
Get that flesh out for real  
Flash it, it's no big deal  
Don't you know that...
