"When You Were Around"

I miss those times,
I miss those days
When you were around,
In so many ways
And it felt so safe,
And I was glad.
But now something's changed,
That makes me sad

And I, was waiting patiently,
But you never came
I realize it now, won't ever be the same... again
Won't ever be the same... again

If you're doing fine,
I don't know
You see, I gave up calling
Long time ago
Haven't heard from you,
I guess that means
That I'm no good no more,
That's what it seems

And I, was waiting patiently,
But you never came
I realize it now, won't ever be the same... again
Won't ever be the same... again

You see, I gave up waiting - for you to care
You're not there,
And I wonder if you... ever were

And I, was waiting patiently,
But you never came
I realize it now, won't ever be the same... again
Won't ever be the same... again
