"Another Day"

Visit "[Another Day](#)" on MotoLyrics.com

Lie to me, say that you need me
That's what I wanna hear
That is what, what makes me happy
Hoping you'll be near
All this time, how could I know
Within these walls, I can feel you

Another day goes by, will never know just wonder why
You made me feel good, made me smile
I see it now, and I can say it's gone
That would be a lie
Cannot control this, this thing called love

You must think, how can this be
You don't really know me
I can't tell, this ain't the time
You'll never be mine
What can I say, something 'bout my life
I just lost again

Another day goes by, will never know just wonder why
You made me feel good, made me smile
I see it now, and I can say it's gone
That would be a lie
Cannot control this, this thing called love

Always have to move on,
To leave it all behind
Go along with time

Another day goes by, will never know just wonder why
You made me feel good, made me smile
I see it now, and I can say it's gone
That would be a lie
Cannot control this, this thing called love
