(mmm)

You kiss my lips  
And say goodnight  
You take my hand  
Turn of the light  
I hear you breath  
I love that sound  
I feel soo safe with you around

And I never tought I'd feel it  
Never tought I'd see it  
Wanna be much better than before  
I was thinking I deserve this  
Always I deserve this  
Well I just don't do that anymore

I watch you sleep  
I sometimes do  
I close my eyes  
and think of you  
I fall asleep  
You're still with me  
I feel as great as I can be

And I never tought I'd feel it  
Never tought I'd see it  
Wanna be much better than before  
I was thinking I deserve this  
Always I deserve this  
Well I just don't do that anymore (x3)
