(Oh yeah)

Ooh, don't be shy
Feed your appetite
You've got that rocket fuel
Ignition ready, ooh ohh
So fire it up
Don't hide it, hype it up
They're watching us, so what?
Don't you know that...

Some people are born to shut up and sit behind the
desk
Some people are born to be safe and cannot take a risk
Handcuff up your boss, yeah, and be rough
He might like it, like it
He'll get a rise, you'll get a raise
Don't tell his wife about it

It's your duty duty, to shake that booty booty
Small, fat, all round or juicy
It's your duty duty, to shake that booty booty
So what you're waiting for?

Shake it shake it shake it shake it

Ooh, straight or gay
You swing it either way
You've got to whip it up
Into a frenzy
Ooh ooh, it's what you feel
Yet this might shock for real
Flash it, it's no big deal
Don't you know that...

Some people are born to shut up and sit behind the
desk
Some people are born to be safe and cannot take a risk
Handcuff up your boss, yeah, and be rough
He might like it, like it
He'll get a rise, you'll get a raise

Don't tell her man about it

It's your duty duty, to shake that booty booty
Small, fat, all round or juicy
It's your duty duty, to shake that booty booty
So what you're waiting for?

Shake it shake it shake it shake it

Oh, don't be shy (okay)
Feed your appetite
You've got that rocket fuel
Ignition ready, ooh ohh
So fire it up (you like that?)
Don't hide it, hype it up (okay)
They're watching us, so what? (come on)
Don't you know that...

Some people are born to shut up and sit behind the
desk (listen up)
Some people are born to be safe and cannot take a risk
(that's right)
Handcuff up your boss, yeah, and be rough
He might like it, like it (come on)
He'll get a rise, you'll get a raise
Don't tell his wife about it

It's your duty duty, to shake that booty booty
Small, fat, all round or juicy
It's your duty duty, to shake that booty booty
So what you're waiting for?

It's your duty duty, to shake that booty booty
Small, fat, all round or juicy
It's your duty duty, to shake that booty booty
So what you're waiting for?
