What is this sitcom therapy?
What is emulation of empathy?
Thrashcan dating Big Brother shows, it's a brothel of
emotions
Why the fuck should I care about a suburb bitch that
can't find a man?
Why the fuck should I care about some fatass that eats
himself to death?
You tell me, why the fuck should I care?
You tell me, what is this charade?
Ratings are money, a life for profit you tell me, are you
that liable?
Thrashcan dating Big Brother shows, it's a brothel of
emotions
