Sanctuary needs a man to save it from the storm  
Pushing on the best way in intensive contro  
Worshipping the myth it s not give and take  
Colliding entity collapsing from its fate  
Burned in one thought  
Swallowed (by) its own beliefs  
Forced to remember  
Opacity  
Tlieir world is turning to black  
Obscure (and) corrosive  
Beyond a shadow of thought they pushed it to the  
limits  
Beyond imagination  
Endoctrined by mass media  
Mass media thorn  
Opposed the forces we don't need  
To be rewarded for our voracity  
Despite the fact we know (we) live and die for sure  
Being aware of our own extermination  
The beauty when light collapsed  
When their system failed  
See our past splendor (of our) society  
Seek who to blame  
Ignored doomed (and) discourages  
Fading crimson light scorn  
Dealing with life corrupts  
Life corrupts  
Thought that lessons learned  
But it revealed our cippetite  
Smashed, our visions blurred  
And now we are blind  
Routine-traitor  
Fading away  
Tomorrow sorrow  
World ablazed  
The tiniest breed that we are  
The tiniest things that made what we are  
Are they finally gonna learn  
That their chance is gone  
Ignored the warnings on the leaf  
Sentencdd to endure opacity

Dealing with life corrupts  
All senses are now unfilled  
Seek who to blame  
Opposed the forces we don't need  
To be rewarded for our voracity
