"Nothing To Be Proud Of"

Visit "[Nothing To Be Proud Of](#)" on MotoLyrics.com

Your skin colour ain't something
you achieved it's how you're born
You can't be proud of your skin
you can only be glad that you are white
else you'd be a victim of discrimination
beaten up by your own fascist friends
your race doesn't make someone stupid criminal
it depends on how you're raised and racism won't do
any good

If you were born somewhere else
you'd have to hate your own skin
You've got nothing to be proud of
'coz you achieved nothing in your life
your only goal is racial hatred
because your IQ is much too low
