"Overkill Bill"

Is this what it has come to?
Is this what you call a scene?
Every week the rehashed shit
Every week beating around the bush
This is the overkill - this bill repeated to death
They are the modern rockstars
The flaccid pornstars
Are you fucking bored yet?
Nothing else to do?
Is it for the 'fame'?
Is it for the 'money'?
Is it for the lack of wit?
Are we bored yet?
Every week the rehashed shit
Every week beating around the bush
This is the overkill - this bill repeated to death
Audience indifferent, play for 20 or less, what a fest
Why aren't we bored yet?
