One night my mom was drinking in a bar  
she told me to sit down and listen to her story  
she's telling me my conception  
came when they were both tipsy  
that's why I was put on this earth  
because you motherfuckers were both drunk  
but what she's really trying to say is  
that I'm just not wanted here

no one welcomed me to this earth  
nobody wants to have me here  
I feel like I'm all alone  
what the fuck did I do wrong?!?

long time ago I had a depression  
My father's trying reverse psychology  
he's telling me I cost too much  
so I propose him to jump off a cliff  
and what he answers then is  
"No you don't have to go that far"  
but what he's really trying to say is  
"just don't blame me in your suicide note"
