"Violence Does Even Justice"

Conditioned to treat blasphemy as natural
Indoctrination (are) the voices of authority
Idiocy (and) stupidity sumjanting our moral codes
Like a distraction to the coming storm
While our existence-whole is centered around control
Violence should be a perfectly normal reaction
To the system we're dying under
Cause violence does even-justice
Strike the force
Break the core
Severity and idiocy
Is their lifelong routine
One shot to kill
Payback in time
Like vultures we'll watch them burn
Kill them
Violence is the perfectly normal reaction
To the system we're dying under
Cause violence does even-justice
Ride a pale horse don't give a chance
The one that strikes first don't give a damn
Democracy is the mutation of revolting die-hards
Into consenting slaves
Zombified and docile
The sorrow that emanates
From our routine-bound lives full of shit
Will lead us to an
Inevitable
Self destruction
Beg for absolution
Like vultures we'll watch them burn
Death flows behind inevitable end
Death
