

Leningrad Cowboys "Space Tractor"

Visit "[Space Tractor](#)" on MotoLyrics.com

Eighteen years ago I saw this U.F.O
And saddled up my tractor for a cosmic caravan
I followed it through space and found this distant place
Where everything is perfect for alien and a man
We're carefree and easy and light years from home
Why don't you lose that frown and let your hair down
Come on let's link together in zero gravity
I was born in Moscow baby You could maybe be my girl
Ride my tractor all night long And everyone will sing
our song
We put on a great show a tractor rodeo
Everyone's invited everyone should come

Ten tractors in the night Ride shotgun if you like
We're modern day space cowboys always on the run
We're carefree and easy and light years from home
Why don't you lose that frown and let your hair down
Come on let's link together in zero gravity
I was born in Moscow baby You could maybe be my girl
Ride my tractor all night long And everyone will sing
our song
