I open my eyes to a glorious day
Stick a finger in the air let the wind lead the way
I don't know were I'll be sleeping tonight
But hey I'm traveling light
There's no money in my pockets
But to me it's all the same
I just sing as I go where I don't know
There's someone smiling down on me
People busy hurrying going nowhere fast
They worry about the future yet dwell in the past
See them slaving, saving for a rainy day
While I just live for today
You will never hear me complaining
I've got better things to do
I just sing as I go where I don't know
There's someone smiling down on me
Solo
Well if they say the world is ones oyster
Then I'm happy as a clam
I just sing as I go where I don't know
There's someone smiling down on me
I just sing as I go where I don't know
There's someone smiling down on me
There's someone smiling down on me
There's someone smiling down on me
