At the end of the world I will be there with you  
And we'll throw a party to celebrate the things we used  
to do  
Like living life, breathing air, running your fingers  
through my hair  
Oh, this isn't fair

At the end of the world I will hold you so close  
So we won't notice the destruction of all we used to  
know  
We will close our eyes as the waters rise  
We'll float away and you will say, "Oh, isn't this nice?"

At the end of the world we'll be together, be together  
If I can spend it with you then the end of the world don't  
matter  
At the end of the world we'll be together, be together  
If I can spend it with you then the end of the world don't  
matter at all

At the end of the world we will kiss for the last time  
And we won't feel the earth collapse into a mess of  
flood and fire  
We'll be making love as the sky above falls down over  
us  
We'll be the luckiest ones

At the end of the world we'll be together, be together  
If I can spend it with you then the end of the world don't  
matter  
At the end of the world we'll be together, be together  
We both know it's the end of the world but we won't  
care  
Because as long as we're together our love will last  
forever

At the end of the world I will be there with you  
And we'll throw a party to celebrate the things we used  
to do

At the end of the world we'll be together, be together  
If I can spend it with you then the end of the world don't

matter

At the end of the world we'll be together, be together

If I can spend it with you then the end of the world don't

matter

It don't matter at all
