Maybe I love you, maybe I do
Maybe this feeling inside me is true
And if I love you and if I do
Then maybe baby, maybe you love me too

I knew I liked you, I knew I cared
And I knew that something was brewing in the air
But I don't fall easily to many betrayed me

But maybe I love you, maybe I do
Maybe this feeling inside me is true
And if I love you and if I do
Then maybe baby, maybe you love me too

I wasn't feeling quite like myself
And something inside me was sitting on the shelf
But then you swam into my heart
And now the good steps starts, oh woo

Yea, maybe I love you, maybe I do
Maybe this feeling inside me is true
And if I love you and if I do
Oh, then maybe baby, maybe you love me too, wow

How can I know for sure
That you and I are meant for something more
And I, oh, I have to go on is this feeling inside
And I hope, and I, and I hope that I am right

Maybe I love you, maybe I do
Maybe this feeling inside me is true
And if I love you and if I do
Oh, then maybe baby, maybe you love me
Maybe baby, maybe you love me
Maybe baby, maybe you love me too
