### "Two Heartbeats"

Here I am in my oasis  
Here I am, my private stasis  
Waking up in darkness  
Making my own consciousness

Here I am in my perfection  
I wait for my new direction  
Wait until the time is right  
Like a fruit tree grow and ripe

You made me out of love  
Here I am, a part of  
You and [?] heart  
You made this light to spark

Two heartbeats, one body  
Two heartbeats, one body  
Two heartbeats, one body  
Two heartbeats, one body  
Two heartbeats, one body  
Two heartbeats, one body

Here I am in my oasis  
Here I am, my private stasis  
Waking up in darkness  
Making my own consciousness
