[Verse 1]

She says, some nights I just lie awake
She says, sometimes I just sleep for days
Smokes another cigarette and looks around the room
What are these days coming to
She says, it seems I've been screwed over again
But that's okay, who the hell needs friends
It's just easier to pretend
Say you don't care and watch for the end

[Chorus]

One more night is all she thinks and then, I'll leave
I won't come back, no not this time but I'm too weak
All those things he said to me, where's that girl I used
to be
One more night, one more night, and then I'll leave

[Verse 2]

She walks in one second too soon
Silence uncovers the room
She looks to him in disarray
He says I'm not sorry and turns away

He says I'm tired of hearing you bitch
You're nothing more than a stupid trick
You're not even worth the price I paid
Get out of my life, get out of the way

[Chorus]

[Bridge]

She's standing on the balcony saying look this is my
destiny
One more step and I'll finally be free
He says if you want my help I'll give you that extra step
She just turns and walks back to their bed

[Chorus]
